Summary

2x certified Senior Backend Developer with 6+ years of experience designing and building scalable, high-performance applications. Expert in Node.js, TypeScript, and microservices architecture, with a strong background in distributed systems, cloud deployments, and database design. Passionate about solving complex problems, mentoring teams, and delivering user-centric products that drive business outcomes.

- **Backend:** Node.js, Express.js, NestJS, TypeScript, JavaScript, REST APIs, Microservices, TDD (Jest, Mocha, Supertest)
- **Frontend:** ReactJS, Next.js, Angular, HTML, CSS, JavaScript
- **Cloud & DevOps:** AWS (Lambda, EC2, S3, RDS, SNS, Elastic Beanstalk), Azure (App Service, VMs, Blob Storage), Docker, CI/CD pipelines
- **Databases:** PostgreSQL, MongoDB, MySQL, MSSQL, Redis, Oracle
- **Messaging & Event Systems:** RabbitMQ, BullMQ, Redis Pub/Sub
- **Project Management & Collaboration:** Jira, Trello, Azure Boards, Slack, Microsoft Teams

Experience

Senior Backend Developer

FCMB Group

Mar 2024 – Present

- Led the backend team managing core applications: smecollect.com, businesszone.com, Financial Authentication Service (FAS).
- Mentored junior developers in microservices architecture, REST API best practices, and database optimization on platforms like Codebar.io, Zoom meetings.

Senior Software Engineer

Smart Power Billing (Sterling Technologies)

Apr 2022 – Mar 2024

- We built and managed these applications: QuikPay, Diaspora Billing, Quikcash, ERPs applications for organizations like BEDC, EEDC and Geometric (APLEs)
- Pioneered the development of a highly available distributed cash collection application, QuikCash, which handles cash collection for customer's energy purchase for over 15+ million users, resulting in an increase in cash collection by more than 40%, bringing in a total revenue of more than 10 billion naira montly to the energy discos. This application was built using Node.js, Express, PostgreSQL, Git.
- I also worked on QuikPay (<https://quikpay.smartpowerbilling.com/>) which is a one click solution to pay for your electricity. This was built using NextJS for the frontend and an idempotent Restful API powered by NestJS serving 5,000 requests/day.
- Initiated and maintained the deployments using Docker and CICD pipelines, reducing deployment time by more than 80% and company deployment expenses by 65%
- Created and supported 5+ Skype groups for interacting with the disco vendor's on the consumption of the QuikCash API and provided support for operational issues raised

Full Stack Web Engineer

First Bank of Nigeria Ltd.

Feb 2021 - Feb 2022 (1 year 1 month)

- Led a two-person team to develop a service-based application automating interbank dispute resolution, resolving 90%+ of daily disputes.
- Developed APIs using .Net Framework and ReactJS for frontend interfaces, improving system responsiveness and scalability.

- Managed deployment and server maintenance using automated scripts and CI/CD tool

Software Engineer

Jensiv Limited

Sep 2018 - Dec 2020 (2 years 4 months)

- Collaborated with a team of developers and operations to launch ScenicPlots, a mobile based app for storytellers to showcase stories to movie producers, agents, and streaming networks
- Initially using Xamarin(C#) then migrating to JavaScript and React Native for the Mobile, Python (Django) for the back-end , Git and MySQL, Deployed Containerized application to Heroku, supporting 1000+ published stories and 100+ active writers in West Africa.

Education

Middlesex University

Bachelor of Science - BS, Computer Science

2015 - 2018

Licenses & Certifications

ADSE - APTECH Computer Education (2015)

AWS Certified Cloud Practitioner - AWS (2025)

AWS Certified Solutions Architect - AWS (2026)
